# 'EDUCATION WITHOUT HOMEWORK'

## *(Why Be Prisoner for 14 Years?)*

Let's assume that on an average in any school there are 6 months holiday in a year, which includes summer vacation, Sundays, examinations and other. So balance time left is 6 months. We spend for study in a school from class $1^{st}$ to $12^{th}$ (12 years X 6 months X 30 days X 6 hours) = 12, 960 Hours. So what do we get after such huge investment of time?
