

# **LIVE TO LEARN**

**(The Way To Glorify Yourself)**

## ***SIX KEYS TO SUCCESS :-***

**BE RESPONSIBLE:** - Our every word, thought and action are created by us so we are responsible for them. Accept responsibility to get key of your life so be slave in your life.

**CONTROL THOUGHTS:** - We are creating ourselves by thinking. Thinking means doing chemical reaction in our mind and body. Only way to purify ourselves is to stop thinking. it is a tough but possible job. Easiest way to do it is to create positive cycle in our life by gratitude and love, which later leads to purity.

**UNDERSTAND YOUR FEELINGS:** - It seems feelings and logics are different, but they are not. Feeling has got deep logic and many times we logically allow feelings to come. Vice-versa, we use logic to justify our feelings. We need to understand and then accept this truth to bring positive in our life.

**REALISE YOUR CONFIDANCE:** - I never met a person who does not have confidence. Angle may vary from person to person. True education is only awakening of knowledge that we have got confidence and we can change our focus.

**USE YOUR POWER TO SELECT:** - Only we have got freedom to select, thereafter everything happens automatically. So we are responsible for our life because we have got power to select. The major selection point in our life is between love and ego. Ego is nothing but presence of tension in our body and mind. So be relaxed and you are love and have tension and you are ego, in hell and a bad person.

**INFINITE CHANCES FOR SUCCESS:** - The every moment has positive chance to get something. Use it by dreaming positive and use your internal force altogether to get it.
